

Finest Italian elegance.

8097

Design by Francesco Dei Rossi

8097 is a peculiar-shaped chandelier intended to be a functional lighting piece while maintaining great aesthetics and a traditional Venetian style. "Rigadin" elements throughout communicate a sense of elegance and sophistication, while the downward-looking arms create a unique aesthetic. This piece also features 24k gold leaf decorations and carefully handcrafted ornate glass drops. Entirely handmade in Murano, this piece is highly customisable and comes in a variety of configurations. Diameter 100cm, 110cm, or 140cm.
