

8002

Design by Francesco Dei Rossi

Plain simplicity with a coloured touch.

8002 is a simple, elegant chandelier with a touch of colour. The ideal choice when in need of a sober accent piece for a sleek interior. Its well balanced design makes it incredibly versatile, allowing this piece to look great in a modern interior as well as a classical one. Its cups are shaped in a unique fashion, and slightly decorated. Highly customisable, 8002 comes in several different configurations, including wall lamp versions. Diameter spans from 80cm to 105cm.
